### FRANCE & UNITED KINGDOM RISE TO THE TOP OF THE PODIUM!

Following many months of preparation, thinking and hardwork to create the best Calvados-based cocktail recipes, bartenders from 14 countries have met at the 21st Calvados Nouvelle Vogue International Trophies edition, in the city of Granville, Monday April 10. This very special day was driven by passion, creativity and of course by the spirit of competition. Professional bartenders and students in bartending gathered with one main objective in mind: being awarded for creating the best Calvados-based cocktail. This year, France and United-Kingdom made it to the top and won the first places.

The purpose of this international creative Calvados-based cocktail, hosted by the IDAC\*, is to improve knowledge and develop fondness for Calvados, in France and abroad: a stimulating process involving professional networks and a fruitful approach: export sales of the Norman brandy have grown by 7,2 % over 2017.

#### THE 2017 TOPIC:

The sea, the seaside...  
And cocktails that  
needed to answer this  
simple question:  
« Free Bartender... Which  
sea do you cherish? »

### FRANCE & UNITED KINGDOM...

France, terroir of Calvados and the United-Kingdom, sixth export market for Calvados, won this year's trophies: France in the professional bartender category, United-Kingdom in the student in bartending category. No need to hide the cheerfulness of Calvados producers who where expected France to make it to the top since many years... Mission accomplished thanks to the skills, professionalism, and dexterity of Yoanna Fouquet.

### ...ESTONIA, FINLAND, LATVIA, LUXEMBOURG & POLAND

These two victories nevertheless, can't overshadow so many other talents from so many countries! Eastern countries showed great scores - it's a classic! - and made it to the podium too... Let's mention Latvia, Estonia and Poland. Do these countries tend to share a special affection towards Calvados? We are tempted to think so! Their pre-selections have been particularly active, showing a great involvement, emulation and ambitiousness. Congrats!

## THE CONTEST TOP MOMENTS

### MORE THAN 70 COCKTAILS...

If you take into account the France finales held in the morning and the Internaitonal finales in the afternoon, professional bartenders, student in bartending and journalists from 14 countries, have shaken more than 70 cocktails, live on stage, from the Archipel Theatre of Granville.

Trophy awards were assessed by two juries. The technical jury composed of French professionals and IBA representatives to evaluate the skills, expertise and performance of the participants. Then the blind-tasting jury with Calvados producers, bar experts, journalists and candids to rate visual qualities, aroma, taste and aftertaste of each cocktail.

14 countries in the Calvados competition this year: Belgium, Denmark, Estonia, Finland, France, Germany, Latvia, Luxembourg, Netherlands, Poland, United Kingdom, Russia, Sweden et Switzerland.

### ... AND A FORMULA FOR SUCCESS

Over the years, this annual event has become a reference in the world of bartending, as well as a not to be missed contest. Daniel Rasmussen, president of the Denmark bartender association tells us: «*There are two major competitions for DBL during the year. Our national contest and the Calvados Nouvelle Vogue Trophy.*»

Why the enthusiasm? The IDAC believes it has to do with the different theme they impose each year to renew the pitch and stimulate creativity; as well as the broad spectrum of flavors, aromas and nuances Calvados offer, depending on the terroir, ages and producers own distillation process.

Most of all, this contest is not led by one single brand, but by dozens of producers, small or big houses, a mix of generations who share the same goal: spread and nurture the knowledge and understanding of the Norman apple brandy, in France and around the world.

### SAINT-JAMES TROPHY

Located in Normandy near the Mont Saint-Michel bay, distinguished «Living Heritage Company», and renowned for its original nautical sailors tees and sweaters, Saint-James was a partner in this year's Trophies. Luc Lesénecal, CEO of the iconic company, has awarded a special Saint-James Trophy to the Swedish Tomislav Komljenovic. Tomi's cocktail « Royal Apple Crunch » will be served at Saint-James key events, in many shops in France and in many other countries.

My favourite ocean is the Pacific Ocean, which covers over 1/3 of the whole earth and connects multiple countries: Australia, China, Canada, Japan and Mexico. My cocktail has self made chocolate bitter and raw chocolate infused Calvados which supports the soft flavour of Calvados »

But just like the sea, my cocktail has also a story side, with the spicyness of Falernum syrup, the bitterness of Angostura and the complexed flavour of Calvados. I cherish them both.
